

DYNAMIC POSITIONING TRAINING PROGRAM

Tailored training solutions

Sirehna delivered a tailor made recognized Dynamic Positioning training course program to operational deck officers, technical- and on-shore personnel based on the Nautical Institute (NI) standards for Dynamic Positioning training.

Sirehna course programs include:

- DP Induction
- DP Operator
- DP Maintenance
- DPO & DPM combined
- Modular & customized training courses

Sirehna's DP customer support & training team have more than 20 years of experience in the field of operations and in various areas of expertise in the Maritime environment.

As subsidiary of Naval Group, we aim to deliver practical, interactive and results-oriented training to ensure the best outcome based from our civilian & military experience.

- **COMPLIANT WITH REGULATIONS**
- **RECOGNIZED & CERTIFIED TRAINING**
- **TAILORED OR MODULAR TRAINING**
- **FULL RANGE OF DP SIMULATORS**
- **VARIOUS SCENARIOS**
- **ON-BOARD & ON SITE TRAINING**
- **E-LEARNING**

WORLDWIDE TRAINING

On board training

Provide a specific training on board, at sea or at berth in port.

In house training

Provide a specific and tailored made training on our facility or dedicated facilities world-wide

E-learning training

Provide a e-learning to follow the program anytime, anywhere at your own pace

Full access to our simulators

- DP0, DP1 & DP2 simulators
- Specific & individual practice
- Demo & access to innovative modes & functions
- Demo & test of advanced & integrated DP sensors
- Free speech with our DP experts & engineers

Dedicated & customized scenarios

- Standard or customized scenarios
- Practical exercises (+ reaction to incidents)
- Operator & maintenance evaluation test
- Documentation : User & Maintenance Manuals
- Post training follow up & support

DP Induction DPI – 1 day

- Introduction to DP : principles, DPS, applications, sensors, actuators...
- Presentation of DP System products : architecture, elements, MMI...
- Demo and familiarization with DP System system (practice on simulator)

DP Operator DPO – 3 days

- DPI program + Induction to Hydrodynamics, ship model, Kalman filter, capability...
- DP modes, functions, settings, online capabilities, PSM&W,...
- Study of DP Incidents (+ emergency procedure) & Practical exercises (+ reaction to incidents)

DP Maintenance DPM – 3 days

- DPI program + Use of DP System focused on sensor inputs, redundancy, power...
- Hardawre : elec diagram, management of spares, replacement or repair
- Faults detection : alarms, troubleshooting, operational maint.(MCO) + Use of remote access kit

Combined or modular DPO & DPM – 5 days

- DPI program + DPO program + DPM program
- Modular & specific courses available
- Customized training as per demand
